Clinical relevance of studies on the visual and radiographic methods for detecting secondary caries lesions – A systematic review
Journal of Dentistry. Available online 29 May 2018
Keywords: Dental caries; Diagnosis; Caries detection; Detection criteria; Restorations

Controlling caries in exposed root surfaces with silver diamine fluoride: A systematic review with meta-analysis
The Journal of the American Dental Association, 2018 (In press)
Keywords: Root caries; preventive dentistry; cariostatic agents; fluoride; dental health care for aged; systematic review

Sealing or infiltrating proximal carious lesions
Journal of Dentistry. Available online 30 April 2018
Keywords: Biomaterials; Caries treatment; Clinical studies/trials; Resins; Sealants; Systematic reviews; Evidence-based dentistry

Fluorides and other preventive strategies for tooth decay
Dental Clinics of North America, Volume 62, Issue 2, April 2018, Pages 207-234
Keywords: Fluorides; Topical; Public health dentistry; Dental caries; Silver diamine fluoride; Pit and fissure sealants

Developmental defects of enamel and dental caries in the primary dentition: A systematic review and meta-analysis
Keywords: Developmental defects of enamel; Dental caries; Primary dentition; Deciduous teeth; Pediatric dentistry

Cell responses to cariogenic microorganisms and dental resin materials—Crosstalk at the dentin-pulp interface?
Dental Materials, Available online 7 March 2017
Keywords: Resin monomers; LPS; LTA; Biocompatibility pathways; NF-κB-Nrf2 crosslinking

Risk of caries adjacent to different restoration materials: Systematic review of in situ studies
Keywords: biofilm; dental caries; evidence-based dentistry; in situ studies; secondary caries

Long-term survival and vitality outcomes of permanent teeth following deep caries treatment with step-wise and partial-caries-removal: A Systematic Review
Keywords: Indirect-pulp-cap; Excavation; Deep caries; Stepwise; Outcome

Sealants for preventing and arresting pit-and-fissure occlusal caries in primary and permanent molars: A systematic review of randomized controlled trials—a report of the American Dental Association and the American Academy of Pediatric Dentistry
Keywords: Glass ionomer sealants; resin-based sealants; caries prevention; caries arrest; pit-and-fissure sealants; systematic review

Probiotics for managing caries and periodontitis: Systematic review and meta-analysis
Keywords: Caries; Bacteria; Dental hygiene; Evidence-based dentistry/health care; Gingivitis; Periodontal disease(s)/periodontitis

Coronal pulpotomy for cariously exposed permanent posterior teeth with closed apices: A systematic review and meta-analysis
Keywords: Vital pulp; Pulpitis; Pulp exposure; Evidence based dentistry; Public health dentistry

Impact of parent-related factors on dental caries in the permanent dentition of 6- to 12-year-old children: a systematic review
(http://www.sciencedirect.com/science/article/pii/S0300571215300828)
Keywords: Children; Dental caries; Family environment; Permanent dentition; Socio-economic status

Do glass ionomer cements prevent caries lesions in margins of restorations in primary teeth?: A systematic review and meta-analysis
(http://www.sciencedirect.com/science/article/pii/S0002817715009873)
Key Words: Dental caries; glass ionomer cements; fluoride

Are topical fluorides effective for treating incipient carious lesions?: A systematic review and meta-analysis
(http://www.sciencedirect.com/science/article/pii/S0002817715007011)
Key Words: Enamel caries; topical fluorides; noncavitated carious lesions; remineralization; systematic review

Diagnostic accuracy of different caries risk assessment methods. A systematic review
Keywords: sensitivity; specificity; likelihood ratio; microbiota; dental caries; QUADAS-2

Secondary caries and microleakage
(http://www.sciencedirect.com/science/article/pii/S0109564115003978)
Keywords: Secondary caries; Recurrent caries; Composite; Resin-based restoration

Cavity lining after excavating caries lesions: meta-analysis and trial sequential analysis of randomized clinical trials
Journal of Dentistry. Available online 8 August 2015.
Keywords: calcium hydroxide; caries; dental; lining; base; evidence-based dentistry

Radiographic caries detection: A systematic review and meta-analysis,
Journal of Dentistry, Volume 43, Issue 8, August 2015, Pages 924-933,
(http://www.sciencedirect.com/science/article/pii/S030057121500494)
Keywords: Bitewing; Caries; Dental; Radiography

Association between developmental defects of enamel and dental caries: A systematic review and meta-analysis
(http://www.sciencedirect.com/science/article/pii/S0300571215000792)
Keywords: Epidemiology; Dental caries; Developmental defects of enamel; Child

Assessment of the effectiveness of mouthwashes in reducing cariogenic biofilm in orthodontic patients: A systematic review
(http://www.sciencedirect.com/science/article/pii/S0300571214003509)
Keywords: Cariogenic plaque; Mouthwash; Mouth rinses; Fixed appliance

Effects of using different criteria for caries removal: A systematic review and network meta-analysis
Journal of Dentistry, Volume 43, Issue 1, January 2015, Pages 1-15
(http://www.sciencedirect.com/science/article/pii/S0300571214002784)
Keywords: Bayesian; Carisolv; Criteria; Dental; Excavation; Fluorescence

The relationship between unspecific s-IgA and dental caries: A systematic review and meta-analysis
Keywords: Saliva; Dental caries; IgA; Systematic review; Meta-analysis

Oral Health Disparity in Older Adults: Dental Decay and Tooth Loss,
Dental Clinics of North America, Volume 58, Issue 4, October 2014, Pages 757-770
Keywords: Dental decay; Tooth loss; Older adults; Dental care; Quality of life; Social implications of oral health; Employment opportunities; Social inequities

Clinical effectiveness of contemporary adhesives for the restoration of non-carious cervical lesions. A systematic review
Dental Materials, Volume 30, Issue 10, October 2014, Pages 1089-1103,
Keywords: Adhesives; Clinical trial; Non-carious cervical lesion; Clinical effectiveness; Systematic review

Is non-cavitated proximal lesion sealing an effective method for caries control in primary and permanent teeth? A systematic review and meta-analysis
Journal of Dentistry, Volume 42, Issue 10, October 2014, Pages 1217-1227
Keywords: Efficacy; Dental caries; Therapy; Adhesives; Composite resin; Systematic review

Long-term remineralizing effect of casein phosphopeptide-amorphous calcium phosphate (CPP-ACP) on early caries lesions in vivo: A systematic review
Keywords: CPP-ACP; Caries; Remineralization; White spot lesions; Systematic review

Caries Management by Risk Assessment Care Paths for Prosthodontic Patients: Oral Microbial Control and Management

Dental Clinics of North America, Volume 58, Issue 1, January 2014, Pages 227-245
Keywords: Caries management; Risk assessment; Care paths; Prosthodontic; Patients

The Impact of Gender on Caries Prevalence and Risk Assessment
Dental Clinics of North America, Volume 57, Issue 2, April 2013, Pages 301-315
Keywords: Dental caries; Risk assessment; Risk management; Gender disparities

Early Childhood Caries: Risk-Based Disease Prevention and Management
Dental Clinics of North America, Volume 57, Issue 1, January 2013, Pages 1-16
Keywords: Early childhood caries; Caries risk assessment; Risk-based disease; Prevention and management

Salivary proteins as a biomarker for dental caries—A systematic review
Journal of Dentistry, Volume 41, Issue 1, January 2013, Pages 2-8
Keywords: Dental caries; Salivary proteins; Saliva; Systematic review
