

Local Services corporate partner interest list

<https://www.bda.org/learning/bse-useful-information/speaker-and-corporate-partner-interest-lists/>

Below you will find details of corporate partners who have shown an interest in working more closely with the BDAs Branches and Sections network as exhibitors, sponsors and/or speakers. The list details information about each company, how they would like to work with you, regions of the country they can cover and any topics they could speak on. If you would like to work with any of the corporate partners on this list for your future events, please contact them directly.

Aerona

AeronaDental became one of the first commercially available Practice Management Solutions to be purpose-built as a fully Cloud-based product. Aerona offers unprecedented access for customers from any device, and strips out hardware costs, user backup requirements and upfront licensing costs to deliver the most technologically advanced, secure and easy to use practice management solutions to over 6000 users in our UK home market, and across Europe and South America. We have been innovating in the dental market for almost 20 years and continue to drive change and growth in the sector.

Christie & Co

We've been valuing dental practices for many years, but in 2013 we launched a specialist dental practice brokerage service. Our aim was simple - to take the very best of what Christie & Co has offered other business sectors over our 85-year history and offer it to the dental sector. Since then, we've successfully completed on many dental practice sales right across the UK.

Dentex

Dentex is creating a long-term, sustainable partnership of dentists – not grouping and selling practices. We have been able to grow by taking a group of people with different skills and working in partnership to build a better business with better information – a similar approach to that of accounting and legal firms. This has never been done in dentistry.

Creating a true partnership means everyone can focus on what they do best, which means creating a sustainable business. The concept of working together in partnership and not as individual practices is a new idea, which, for us, is where the future of dentistry lies.

Devizes NHS Treatment Centre

Devizes NHS Treatment Centre is a clean, modern and comfortable hospital specialising in a variety of different surgical specialities, including orthopaedics, endoscopy, ophthalmology, general surgery, gynaecology, urology and ear, nose and throat surgery. The centre also provides diagnostic services, using ultrasound and plain film X-rays.

At Devizes NHS Treatment Centre the team are passionate about creating an exceptional experience for all NHS patients and are dedicated to delivering the highest standards of quality and safety. They believe in treating you as quickly and carefully as possible, helping you to feel better, faster.

- Free NHS Healthcare
- Rated 'good' by CQC
- Free parking
- Short waiting times
- High levels of patient satisfaction
- Help and advice when you need it
- Zero cases of hospital-acquired MRSA.

The treatment centre is run by leading health and social care provider, CARE UK, on behalf of the NHS. Day surgery is provided at the centre, with in-patient surgical procedures carried out at their sister hospital, Emersons Green NHS Treatment Centre, near Bristol.

Kettenbach

Kettenbach is an internationally positioned and well-established German company which for decades has attracted attention in the dental sector thanks to its inventions and product innovations. The foundations for efficient processes and successful treatment in dental practices have been established in the segments of **dental impressions and restoration**. Simply intelligent. Market-leading products such as Panasil® and Futar®, supplemented by the in-house development of innovative materials such as Identium®, have long simplified the day-to-day work of dentists. Product innovations in restorations have also been added: for temporary and permanent restorations the Visalys® product line is synonymous with quality at the highest level.

MC Repairs

We offer a reliable, efficient repair service for handpieces, motors, scalers and couplings from all major manufacturers including Bien Air, Anthogyr, Kavo, MK Dent, NSK, Star, Lares, Sirona and W&H. We are extremely competitively priced and confident that you'll find us to be the best value repair centre in the UK.

We have a Freepost Service and free no obligation quotations on all repairs, so it won't cost you a penny until the quote is accepted. All repairs are quoted the day they are received, and the vast majority are returned within 24 hours of acceptance, so there is no need for the instrument to be away from the surgery a minute longer than necessary.

We only use the highest quality components, including original manufacturers' components whenever appropriate, with all repairs undertaken to independently verified ISO 9001:2015 standards – your guarantee of quality and reliability.

As well as complete overhauls, we also offer a choice of very competitive Bearing Repair Services enabling practices to extend the operating life of their handpieces whilst lowering the costs. The operator will observe improved performance and quieter operation.

All work carried out carries a warranty ranging from 3 to 12 months and we guarantee all materials and workmanship for the full warranty period. We also offer practices free technical advice on the care and maintenance of handpieces etc, so that you get a longer working life and more value for money from your handpieces and other similar pieces of equipment.

MediDen – Independent Financial Advisers

With over 20 years in Financial Services, our straightforward approach is to provide a comfortable, personally tailored service; working with you, at your pace, without pressure or 'hard sell', to help achieve your financial goals. We work with healthcare professionals, understanding their specific career paths and their financial priorities along with the wider issues affecting their sectors.

Because we are independent, we have no ties or allegiances. This means we are not limited to one or two options by one or two providers. We research the whole financial marketplace to find the most suitable solutions available.

The potential benefits to you might include:

- Lower cost protection policies, saving you money, as we compare the market
- Perhaps more suitable policies which better match your requirements
- Wider choice for specific requirements; maybe you have strong views on investing in an ethical or sustainable way.

PortmanDentex

Our purpose is to be the world's leader in dental care. We're always looking for better ways to do things – and we've got the people and resources to make them happen. Today, we support over 370 practices across the UK and Ireland, with more than 2,400 passionate clinicians and 4,500 dedicated practice colleagues providing dental care for 1.5 million patients. Health and happiness is what we're all about. That's why we support our clinicians and practice teams to deliver the best possible patient care to their local communities every day. Though we're a large group, we celebrate the individuality of our people and practices. We are part of the wider Portman Healthcare International Group which has a presence in five European countries.

SmartDS

SmartDS are a company of systems integrators, software engineers, designers and consultants with a keen interest in innovative technologies. The directors each have more than 25 years of experience delivering large scale IT services and IT consultancy solutions to corporate and government clients. SmartDS are technology enthusiasts. When we aren't working for clients, we are researching, building IOT and VR/AR and mixed reality solutions and systems. We pioneered the commercialisation of new technologies for B2B clients, which included designing and building training systems, behavioural management systems and the commercialisation of digital pen systems for remote data capture. SmartDS has been developing Mixed Reality experiences since November 2016 when Microsoft's HoloLens first became available.

Solvay Dental 360

Solvay Dental 360®
Ultaire® AKP Partial Dentures

Purposefully engineered with the ideal properties for an RPD in mind, Ultaire® AKP is an innovative high-performance polymer designed to fill the gap between metal RPDs (which can be too rigid) and other flexible materials (which often lack support).

Key product features:

- Lightweight (60% lighter than metal)
- Comfortable, secure fit with premier aesthetics
- Bone-like and tooth-supported
- Stain, odour and biofilm resistant
- Non-corrosive, non-toxic and non-irritating.

Ultaire® AKP has a unique proprietary chemistry developed specifically for dental applications by Solvay Dental 360®, part of Solvay, a world leader in metal-replacing materials for the healthcare industry.
